HUCHEZ launches its new website www.huchez.com

It was expected... discover our new website!

HUCHEZ launches its new website **www.huchez.com**, totally redesigned for easier access to all the information concerning its know-how and its products. New graphics, an improved user-friendliness and a more complete website... everything has been thought out for quick and easy access to information!

Thanks to the « **Responsive Web design** » technology, our website now fits effectively to your devices and screens resolution while providing an optimal navigation.

The new website is composed of six main sections:

- **About us:** HUCHEZ, its organization and its know-how,
- **Products:** all the standard products of HUCHEZ catalogue,
- **Custom made:** special winches, special rope machines... by HUCHEZ Engineering,
- **Activity-sectors:** the main activity sectors where HUCHEZ winches are used,
- **Services:** after sales service, warranty, subcontracting in machining...,
- **Media Library:** all of the documents that can be downloaded from the website (photos, videos, press releases...).

Other functionalities will be soon proposed to web users: **do not hesitate to visit us regularly!**

We invite you to follow us on the social networks (Facebook, Google+, LinkedIn, YouTube) in order to stay inform about all our current events.

Happy browsing!

About HUCHEZ

HUCHEZ designs, manufactures and sells more than 5,000 units of professional lifting equipment in France each year. It is the leading French company in the manufacture of a large range of manual and electric winches to meet the needs of customers from all sectors (industry, construction and public works, craftsmen) renowned for their quality, robustness and reliability.

HUCHEZ follows a specific product innovation policy which led it to win the 2013 INPI Innovation Trophy for the Picardy region. The Huchez Engineering department uses its expertise to develop custom-made solutions for complex projects.

The company has a turnover of €7.6 million (2016) and has around 50 employees. 35% of its turnover is gained internationally.
